Warehousing Solutions

Our warehousing solutions are always based on our customers' needs and business requirements. We may set up a fully tailored and integrated long term warehousing solution, provide short term buffer storage or act as a cross dock terminal. We provide cost efficient and flexible solutions that adapt to your business needs and keep your logistics ahead of the competition. Besides warehousing and normal pick & pack activities, we are able to offer various cost efficient value added services, distribution or we can manage your whole supply chain.

We are proud to offer its state-of-the-art warehouses for both Cool and Cold temperatures meeting any seasonal temporary and long-term storage requirements. We constantly monitor, control and record the temperature via an advanced remote management system, ensuring optimum temperature and integrity of our clients' products. Our leading technologies ensure real-time visibility, seamless reporting and management.

Our highly experienced team specializes in developing cost effective, warehousing solutions to exactly meet our clients' requirements.

This state-of-the-art facility offers the latest in warehousing design and engineering, comprising:

- Hazardous Materials & Non Hazardous Materials.
- Cool warehouses (Temperature ranging +15°C to +25°C)
- Cold warehouses (Temperature ranging 0°C to -25°C)
- Large marshaling areas for staging, inspections and pallet building
- Massive storage capacity for high volume and throughput
- Modern temperature controlled engineered docks and shelters
- Continuous temperature and humidity monitoring
- Round the clock IT & Warehouse Management System support
- 24/7 Surveillance and CCTV monitoring
- Adequate parking for all sized trucks
- Increased airflow-Air moves unobstructed by debris build up, blowers and fans do not need to cycle as long or as often.
- Energy Saving, as motors and drives do not work as hard, less energy is consumed by the system.

Why Us

- A range of unit sizes: Whether you need large space to store in bulk to store just a few boxes of archive or the contents of your entire retail stock, we have a solution.
- Short term and long term storage options: Not sure how long your office refurbishment will take? Don't worry! We're flexible. You can stay with us for as short or as long as you need.
- Easy access 7 days a week 24 hours a day: We have 34,000 sq m, conveniently access your stock, equipment or archive anytime.
- Secure units with CCTV: Only you have access to your unit. One less thing to worry about.
- Easy access: Loading and unloading easier anytime.
- Change your unit size at any time: As the office move evolves so may the space you need. Move to a different size unit at any time with no transfer costs.
- Insurance : Insurance coverage as per your need

TRANSPORTATION

Fundamental to any logistics operation is transportation. We offer a comprehensive suite of transportation management services which can be tailored to meet our clients' specific needs.
Our fleet of trucks vary in size and purpose meeting the specific shipping needs of all types of goods, for both long and short haul – ensuring the quality and safety of our clients' and their customers' products.
Our highly skilled team evaluates every client's requirement and provides the most cost effective transportation solution for the most efficient and safest movement of their products. As one of the UAE's most experienced logistics providers, we are able to partner with other local truck, sea and air carriers, as required.

We are in the driving seat, managing your products from point of origin, until final destination

VALUE ADDED SERVICES

Nelco has the experience and expertise to go beyond traditional warehousing and transportation. We can provide a host of value added services that complement our handling and storage functions.
The convenience of engaging us as a single source service provider can result in both a greatly reduced time to market and substantial cost savings associated with managing multiple suppliers. This also enables consolidation of operations from a geographical and channel perspective.
Our teams are highly experienced in these services and are able to respond quickly to service requests irrespective of size or complexity. They will ensure that every service project is completed on time while meeting all quality assurance expectations.
